M BHANU SHANKAR

UI DEVELOPER | FRONTEND DEVELOPER

+91 7286837602 bhanushankar474@gmail.com https://bhanushankar-portfolio.netlify.app

ABOUT ME

UI Developer / Frontend Developer with 6.5 years of experience in UI/UX design, UI development, and frontend development. Experienced in analyzing client requirements and translating them into responsive and pixel-perfect user interfaces using Figma, Figma Dev Mode, Auto Layout, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, React.js, and Angular. Strong experience in UI design, design systems, reusable components, responsive design, and design-to-code implementation. 2.5 years of experience in frontend development using React.js, Angular, JavaScript, TypeScript, REST APIs, and UI component libraries. Experienced in AI-assisted development using Cursor and GitHub Copilot for code generation, implementation, debugging, refactoring, and documentation. Proficient in Git, GitHub, Vite, npm, and Agile/Scrum methodologies.

PROFESSIONAL EXPERIENCE

UI Developer / Frontend Developer

Amzur Technologies | Visakhapatnam | Feb 2020 – Present

UI/UX DESIGN & UI IMPLEMENTATION

- Analyzed client requirements, business requirements, and functional specifications to understand user needs and application workflows.
- Created wireframes, high-fidelity UI designs, prototypes, reusable components, and responsive layouts using Figma.
- Used Figma Auto Layout, components, variants, and design systems to create consistent and developer-ready UI designs.
- Designed responsive and user-friendly interfaces for desktop, tablet, and mobile applications.
- Translated approved Figma designs into UI screens using HTML5, CSS3, Bootstrap, Tailwind CSS, SASS, and SCSS.
- Implemented UI designs within React.js and Angular applications, focusing on accurate visual representation of approved designs.
- Worked with UI component libraries including shadcn/ui, Material UI, PrimeReact, and Ant Design to maintain consistent interface patterns.
- Created and maintained reusable UI components, layouts, forms, tables, dashboards, navigation, cards, and modal designs.
- Ensured pixel-perfect implementation and consistency between Figma designs and application UI.
- Collaborated with clients, UX/UI designers, developers, QA teams, and business stakeholders to refine UI requirements and resolve design-related issues.
- Performed UI testing, cross-browser validation, responsive testing, and visual defect resolution.
- Applied UI/UX principles related to usability, accessibility, consistency, responsive design, and visual hierarchy.

AI-Assisted Frontend Development

- Leveraged Cursor and GitHub Copilot as AI-assisted development tools to accelerate frontend implementation, code generation, refactoring, debugging, documentation, and development workflows.
- Converted functional requirements and UI designs into production-ready frontend features using AI-assisted development while reviewing, validating, and refining generated code.
- Used AI-assisted workflows to improve development productivity while maintaining code quality, project architecture, coding standards, and maintainability.
- Performed code review, debugging, optimization, and testing of AI-assisted implementations before integration into applications.
- Used React.js, Angular, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, and component libraries to develop and maintain modern web applications.
- Worked with Git and GitHub for source control, branching, collaboration, pull requests, and code management.
- Troubleshot UI defects, frontend issues, browser compatibility problems, API integration issues, and application-level bugs.
- Collaborated with cross-functional teams in Agile/Scrum environments to deliver features within project timelines.

TECHNICAL SKILLS

UI/UX Design: Figma, Figma Dev Mode, UI Design, UX Design, Wireframing, Prototyping, Auto Layout, Design Systems, Design Components, Responsive Design, Pixel-Perfect Design, User Interface Design

Frontend Development: HTML5, CSS3, JavaScript, ES6+, TypeScript, React.js, Angular, Responsive Web Development, Component-Based Development, Reusable Components, REST API Integration

CSS & UI Frameworks: Tailwind CSS, Bootstrap, SASS, SCSS, Material UI, shadcn/ui, PrimeReact, Ant Design

React & Angular: React Components, React Hooks, State Management, Angular Components, Angular Services, Forms, Routing, API Integration, TypeScript

AI-Assisted Development: Cursor, GitHub Copilot, AI-Assisted Coding, Code Generation, Code Refactoring, Debugging, Code Optimization, Development Automation

Development Tools: Git, GitHub, VS Code, Vite, npm, Figma Dev Mode, Chrome DevTools

Development Practices: Agile, Scrum, Cross-Browser Compatibility, Accessibility, Performance Optimization, Code Review, Debugging, Responsive Design

EDUCATION

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering (ECE) **2014 – 2018**
Malla Reddy Institute of Technology

ADDITIONAL INFORMATION

Languages
English,Telugu, Hindi.

Certifications

- AI Agent Development Workshop – Frontlines Edutech | Participated in Build Your First AI Agent App workshop
- AI Tools & ChatGPT Workshop – be10x | Completed, July 2025
- AI Forge Capstone Project – Amzur | Successfully completed AI learning program and capstone project, June 2026
- UI & UX Assessment – LearnTube by CareerNinja | Completed, September 2024

PERSONAL PROJECTS

Financial Tracker — Personal Finance SPA

Tech: React 19, JavaScript (ES6+), Vite, Ant Design, Tailwind CSS, Recharts, React Router, IndexedDB

- Built a responsive Single Page Application (SPA) for tracking income, expenses, budgets, and savings goals.
- Developed interactive dashboards, charts, and financial analytics using Recharts.
- Implemented CRUD operations, filtering, sorting, multi-currency support, dark/light mode, and PDF/Excel reports.
- Implemented persistent client-side storage using IndexedDB with localStorage fallback.
- Used React Router, Context API, and reusable UI components for application architecture.

Wanderlust Travel Website — Travel Landing Page

Tech: Next.js 15, React 19, JavaScript, Tailwind CSS, shadcn/ui, Radix UI

- Built a responsive single-page travel website using Next.js, React, and Tailwind CSS.
- Developed destination search/filter, travel packages, testimonials carousel, contact form, and chat widget.
- Implemented reusable UI components using shadcn/ui and Radix UI.
- Implemented mobile-first responsive design and dark/light theme using Next.js and Tailwind CSS.
- Used Next.js App Router, Server/Client Components, next/image, and React Hooks for application development.
